

Seogyeong Jeong

I am a Master student at [KAIST School of Computing](#), working under the supervision of [Prof. Alice Oh](#). My research interests lie in **Natural Language Processing (NLP)** and **Machine Learning (ML)**, with a focus on understanding and improving **large language models (LLMs)** at a more fundamental level. Recently, I have been particularly interested in (1) **evaluation of LLMs** for planning and decision-making, (2) **agent-based frameworks and efficiency** in LLM inference, and (3) **mechanistic interpretability** of language models to better understand and improve their training and inference behaviors.
