

Seogyeong Jeong

I am a Master's student at [KAIST School of Computing](#), advised by [Prof. Alice Oh](#). My primary research interest is **reasoning in large language models (LLMs)**, with additional interests in **post-training** and **mechanistic interpretability**.

My research begins with understanding how reasoning behaviors arise from the internal representations and learning dynamics of LLMs. In particular, I am interested in how these behaviors vary across different **languages, cultures, values, personas**, and task environments. I use mechanistic interpretability to investigate the internal mechanisms underlying such variation and to identify where and why reasoning failures occur.

Building on this understanding, I aim to gradually move from analysis to intervention: developing model-level methods that improve reasoning through **pretraining, post-training, alignment**, and **test-time control**. My long-term goal is to build **reliable, interpretable, and controllable LLMs** that reason robustly across diverse user contexts.

Personal Data

Place and Date of Birth: Republic of Korea | 28 August 2000
Address: 4417, E3-1, 291 Daehak-ro, Yuseong-gu, Daejeon, Republic of Korea
Email: sg.jeong28@kaist.ac.kr
Accounts: [X](#), [LinkedIn](#), [Google Scholar](#), [Github](#)

Education

Korea Advanced Institute of Science and Technology (KAIST) Sep 2024– Current
M.S. in *School of Computing*
Advisor: [Alice Oh](#)

Korea Advanced Institute of Science and Technology (KAIST) Feb 2019– Aug 2024
B.S. in *School of Computing*(Major) and *Mathematical Sciences*(Minor)
Electrical Engineering and *Bio and Brain engineering* (Individually designed major)

Work Experience

NAVER AI LAB Backbone Team Mar 2026–Current
Research Intern
Latent representation, LLM reasoning

User and Information Lab Jun 2022–Aug 2024
Research Intern
Graph Neural Network, Natural Language Processing, Generative Language model

Emerging Nano Technology and Integrated Systems Lab. Jun 2021–Feb 2022
Research Intern
Artificial neuron array based Neuromorphic computing

Publications

Awards & Honors

- **Excellence Award (2nd Place)**, 3rd AI Hackathon for Network Intelligence
Open AI Networking Korea (ONK) 2025, hosted by [AI Network Forum](#) (**Top 2%** among 94 teams)
Team award with Jinseo Lee

Activities

Teaching Assistant	Sep 2025 – Dec 2025
KAIST Computer Science Department Course <Introduction to Computer Programming>	
Teaching Assistant	Mar 2025 – Jun 2025
KAIST Computer Science Department Course <Introduction to Computer Programming>	
Teaching Assistant	Aug 2024 , Jan 2025
KAIST Humanity Course <Special Lecture on World Languages and Cultures - Contemporary Japanese Culture>	
Teaching Assistant	Sep 2024 – Dec 2024
KAIST Humanity Course <Japanese Conversation>	
Representative	Mar 2024 – Aug 2024
KAIST Catholic Student Union Sanarae	
Executive	Mar 2022 – Feb 2023
KAIST Catholic Student Union Sanarae
